GENERAL INFORMATION:

Garbuglio suspension lamp consists of a metal rod frame finished in white, black or satin gold. The center of the tangle houses the precious white glass diffuser that contains the light source that achieves a perfectly harmonic and soft light emission without glaring.

Refined colors, high quality materials and impressive design come together to give your environments new identity and charm.

In order to satisfy the most sophisticated tastes, the ceiling rose matches the frame. The white version features an electric cable in white silk and the black and gold version feature an electric cable in black silk and in gold silk. An eye-catching and threadlike composition of perfect and rigorous geometries invents amazing games of light and shadows that will transmit their intense magic to any given space.

A contemporary collection that stands out for its industrial looking thought to enhance your modern environments, such as kitchens, living areas, conversation areas and even your dining tables.
