

This sculptural lighting collection transforms delicate glass elements into fluid, organic compositions inspired by movement in nature. Suspended at different heights, each handcrafted element creates a sense of rhythm and lightness, allowing the fixture to range from a minimal pendant to a dramatic large-scale installation.

Crafted from metal and glass, the collection offers extensive customization through multiple frame and glass finishes, making it suitable for both residential and commercial interiors. Integrated 3000K LED lighting produces a warm, refined glow that highlights the contours and reflective qualities of the glass.
